

Literacy & Phonics/Spelling

We are writing a recount about our visit to Whitby Fire Station and then a diary entry as Samuel Pepys. We are trying to include different sentence openers in our writing and different types of sentences. Year 1 will be preparing for their phonics screening check and Year 2 will be getting ready for their reading SATs paper.

Maths

Year 1 will be looking at multiplication and division counting in 2s, 5s and 10s. They will then be moving on to fraction work. Year 2 will be starting with temperature, then looking at fractions and time. Year 2 will be sitting their maths SAT paper at the end of term.

Topic Work

Our topic work will be based around the Great Fire of London and making a timeline of events. We will focus on Samuel Pepys and his diaries. We will also be visiting Whitby Fire Station.

Ash Class Summer Term

Rewind Time

This is an exciting topic which will invite children to turn back the clock in order to explore and discover historical events with a focused study on the Great Fire of London.

We will also be preparing for the May Queen Ceremony by learning some maypole dances and getting ready for the Summer Show.

DT

In DT, we will be focusing on wheels and axles. We will design a vehicle that includes wheels, axles and axle holders to allow the wheels to move.

Science

In Science, we will be thinking carefully about what we were like as a baby and how our body has changed since then. We will be comparing foot and hand sizes to make a class display and considering how to investigate what we can hear in the playground. We will be investigating fruit and vegetables and planning a balanced picnic for guests.

RE

We will be doing an Understanding Christianity unit and focusing on the key question 'Who do Christians say made the world?' We will be looking at the story of creation.

Music

Our music focus will be on orchestral instruments through traditional stories.

If you need to contact me, please use Dojo and I will respond at my earliest convenience. Please continue to support your child at home by reading with them and practising their spellings/tricky words. Children need to be accessing TTRockstars at home to improve their multiplication and division knowledge.
