

Up, Up and Away!

This half term we are learning all about Space! Please keep an eye on class Dojo for any upcoming experiences. PE will be on Tuesday and swimming lessons on Thursday. Children may come to school in PE kit on Thursday as this may assist children in changing before and after their swim session.

Science

KSI - Our Science topic this half term is 'Materials'. We will be naming and sorting materials according to their properties and testing materials.

EYFS - We will be learning about Space and the planets. We will also focus on changes we see in Winter.

Maths

KSI - In Year 1 this half term, we will be focussing on recognising and representing numbers to 20 alongside developing our understanding of addition and subtraction. In Year 2 we will be learning about multiplication, division and money.

EYFS - We will continue to develop our understanding of numbers to 10 through practical experiences in our focussed lessons and explorations.

Literacy

KSI - We will begin by reading 'The Man on the Moon' by Simon Bartram.

We will explore the different aspects of the text before using this as a stimulus for writing our very own story about a trip to the Moon!

EYFS - We will be exploring 'Whatever Next' by Jill Murphy

EYFS

EYFS - In the EYFS children will be learning all about Space! We have lots of exciting activities coming up and can't wait to share our learning with you!
